The Human-AI Partnership Framework

Where human judgment belongs

Acquire-to-Retire

PCF 9.4 — Capital planning & fixed-asset project accounting — Value Stream Profile

This value stream comprises one APQC PCF process group: 9.4 Manage Fixed-Asset Project Accounting — spanning 2 Level 3 processes and 9 Level 4 activities, the smallest value stream in PCF 9.0 by L3 count.

At the activity level, this value stream's work breaks down as 4 Transaction activities, 2 Decision activities, 2 Knowledge activities, and 1 Document activity. No Exception-pattern activity exists within this value stream.

At M3 (HITL Design Intent), the value stream's aggregate human-involvement ratio is 54%, down from a 75% undesigned baseline — a 21-point AI convergence opportunity, tied with Treasury & Risk as the shallowest in PCF 9.0.

L3 PROCESSES	L4 ACTIVITIES	M1 BASELINE H%	M3 DESIGN INTENT H%	Δ M1 → M3
2	**9**	**75%**	**54%**	**-21%**

KPIs

Business Impact Metric & Formula (where confirmed)	Source
Capital project accounting cost ratio *% of finance operating cost dedicated to fixed-asset and capital-project accounting*	APQC OSB
Capital project ROI realization *Actual post-completion return ÷ originally approved business-case projected return*	APQC OSB
Asset capitalization cycle time *Calendar days from project completion to formal capitalization in the fixed-asset ledger*	APQC OSB

Design Narrative

Acquire-to-Retire is PCF 9.0's smallest value stream by L3 count (2) and, at exactly 1-to-1, its most evenly split: Director of FP&A holds Accountable for capital planning and project approval (9.4.1) — the stream's plan-side half — while Director of Accounting holds Accountable for capital project accounting (9.4.2) — the execute-and-capitalize half. Rather than force a single owner where none exists in the underlying RACI, this value stream is documented as a genuine two-step plan-then-execute handoff between FP&A and Accounting, the same honest-gap treatment PCF 7.0 applied to its own partial-ownership cases (Payroll, Global Mobility). Director of FP&A is named the nominal Value Stream Owner because the stream opens with its planning L3, consistent with how every other PCF 9.0 stream's owner is drawn from the L3 that starts the flow. Its steepest AI-absorption opportunity sits in 9.4.1.1 (Develop capital investment policies and procedures, Document-pattern, -32 points).

AI Capability Map

Pattern-type distribution across this value stream's activity units. H% figures are the pattern type's standard value at each maturity level, applied consistently across all PCF domains.

Decision
Judgment & Authority — gates that stay human by design
2 L4 activities
M1 92% → M3 80%

Knowledge
Synthesis & Interpretation — judgment-driven work
2 L4 activities
M1 85% → M3 65%

Document
Content Generation — drafting and communication
1 L4 activities
M1 72% → M3 40%

Transaction
Rules-Based Processing — suited to automation
4 L4 activities
M1 60% → M3 35%

Exception
Non-Standard Resolution — human-resolved by nature
0 L4 activities
No activities of this pattern in this value stream

Process Accountability

Process Accountability	Tier	L3 Processes	L4 Activities
Director of FP&A	**Managerial**	9.4.1	4
Director of Accounting	**Managerial**	9.4.2	5

Handoff Points

Acquire-to-Retire opens with Director of FP&A-accountable capital planning — developing investment policy, building the capital plan, and approving individual projects (9.4.1).

Once a project is approved, the stream hands off entirely to Director of Accounting for capital project accounting (9.4.2) — recording transactions, tracking spend against budget, and capitalizing the completed asset.

This FP&A-to-Accounting handoff is the stream's only transition point, and it is a genuine ownership boundary rather than a data pass-through: FP&A's authority ends at project approval, and Accounting's begins at project execution.

Governed Decision Points

Every Decision/Exception-pattern activity in the value stream, including those embedded inside Mixed-labeled steps.

PCF	Decision	Authority	Impact	Escalates To	Trigger
9.4.1.2	Develop and approve capital expenditure plans and budgets	Director of FP&A	Financial — commits multi-year capital budget allocation	CFO (Executive)	Capital plan exceeds Director of FP&A's standing authorization or spans more than one fiscal year
9.4.1.3	Review and approve capital projects and fixed-asset acquisitions	Director of FP&A	Financial — authorizes individual capital-project spend	CFO (Executive)	Project cost exceeds the standing capital-approval threshold or falls outside the approved capital plan
