

PCF 7.0 — Develop and Manage Human Resources

End-to-End Process & Role Accountability Specification

This document specifies the full end-to-end process flow and role accountability for all of PCF 7.0 (Develop and Manage Human Resources) — 8 process groups, 37 Level 3 processes, and 100 Level 4 activities in total. Each row shows the activity's HITL pattern and M3 (HITL Design Intent) human-involvement ratio, alongside its confirmed RACI assignment.

RACI assignment in this framework is confirmed at L3 process granularity, grounded directly in real APQC L4 activity text matched against the Organizational Role Taxonomy — never inferred from process names alone. Every L4 activity shown below (in gray italic) inherits its parent L3's confirmed RACI rather than carrying an independently assigned one, consistent with the methodology used throughout this framework.

End-to-End Process Specification

R = Responsible · A = Accountable · C = Consulted · I = Informed · Full L1→L2→L3→L4 hierarchy, RACI carried from L3 to its L4 children

PCF	Activity	Pattern · M3 H%	R — Responsible	A — Accountable	C — Consulted	I — Informed
