

PCF 7.4, 7.7, 7.8 — Enable & Govern Value Stream

HITL Design

This document defines the HITL (Human-in-the-Loop) design for the Enable & Govern value stream, spanning three APQC PCF v8.0 process groups — 7.4 (Manage Employee Relations), 7.7 (Manage Employee Information), and 7.8 (Manage Employee Communication) — rather than a single contiguous group as in prior value streams. 16 Level 3 processes and 8 Level 4 activities in total.

At M3 (HITL Design Intent), this value stream's aggregate human-involvement ratio is 57%, down from a 79% undesigned (M1) baseline — a 22-point AI convergence opportunity. Role accountability for every L3 process is confirmed under the framework's reasoned-match methodology, grounded in real APQC L4 activity text against the Organizational Role Taxonomy's documented responsibilities.

HITL Impact Analysis

Human involvement (H%) at M1 (Undesigned) and M3 (HITL Design Intent), by L3 process. Mixed-pattern L3 rows reflect an equal-weighted rollup of their real L4 children.

Process Step (L3)	PCF	Pattern	M1 H%	M3 H%	Δ M1 – M3	Opportunity
Manage Labor Relations	7.4.1	Decision	92%	80%	-12%	Case-based labor-relations umbrella work stays Decision-pattern and human-led; the smallest Δ in this value stream's 7.4 group.
Manage Collective Bargaining Process	7.4.2	Decision	92%	80%	-12%	Bargaining negotiations stay Decision-pattern and human-led, consistent with the legally binding nature of the agreements themselves.
Manage Labor Management Partnerships	7.4.3	Knowledge	85%	65%	-20%	Relationship-stewardship work stays Knowledge-pattern; standard Knowledge-pattern convergence with no additional AI-absorption opportunity.
Manage Employee Grievances	7.4.4	Exception	95%	82%	-13%	Grievance resolution is Exception-pattern by nature — non-standard cases requiring human resolution, one of this value stream's shallowest AI-absorption gaps.
Monitor Legal and Regulatory Environment	7.4.5	Knowledge	85%	65%	-20%	Regulatory-monitoring stays Knowledge-pattern; compliance-infrastructure stewardship rather than case-based relations work.
Manage Reporting Processes	7.7.1	Document	72%	40%	-32%	Reporting-process content is Document-pattern — one of this value stream's steepest AI-absorption opportunities.
Manage Employee Inquiry Process	7.7.2	Exception	95%	82%	-13%	Employee inquiry handling is Exception-pattern — non-standard, case-by-case resolution stays human-led.
Manage and Maintain Employee Data	7.7.3	Transaction	60%	35%	-25%	Employee data maintenance is fully Transaction-pattern — clean systems-of-record work well suited to automation.
Manage Human Resource Information Systems	7.7.4	Transaction	60%	35%	-25%	HRIS administration is fully Transaction-pattern, consistent with its direct systems-ownership match.
Develop and Manage Employee Measures	7.7.5	Knowledge	85%	65%	-20%	Employee-measures development stays Knowledge-pattern, reflecting the absence of a dedicated analytics role rather than automation resistance.
Develop and Manage Time and Attendance Systems	7.7.6	Transaction	60%	35%	-25%	Time and attendance systems administration is fully Transaction-pattern — a direct systems-ownership match suited to automation.
Develop Workforce Analytics	7.7.7	Mixed	81%	62%	-19%	Four of five analytics-development activities are Knowledge-pattern; only methodology selection (Decision-pattern) and data-gathering (Transaction-pattern) diverge from the design-tier default.
Implement Workforce Analytics	7.7.8	Mixed	72%	47%	-25%	Data transformation (Transaction-pattern) carries the clearest AI-absorption opportunity; insight development stays Knowledge-pattern and outcome communication is Document-pattern.
Develop Employee Communication Plan	7.8.1	Knowledge	85%	65%	-20%	Communication planning stays Knowledge-pattern — business-facing, change-adjacent design work.

PCF 7.4, 7.7, 7.8 — Enable & Govern Value Stream

HITL Design

Process Step (L3)	PCF	Pattern	M1 H%	M3 H%	Δ M1 – M3	Opportunity
Conduct Employee Engagement Surveys	7.8.2	Document	72%	40%	-32%	Survey administration is Document-pattern — the same functional activity and AI-absorption profile as Reward-to-Retain's 7.5.5.
Deliver Employee Communications	7.8.3	Document	72%	40%	-32%	Communication delivery execution is Document-pattern — tied for the steepest AI-absorption opportunity in this value stream.

AI Capability Map

Pattern-type distribution across all 22 activity units in this value stream (8 L4 activities plus 14 single-leaf L3s). H% figures are the pattern type's standard value at each maturity level, applied consistently across all PCF domains.

DECISION <i>Judgment & Authority — gates that stay human by design</i> 3 L4 activities M1 92% → M3 80%	KNOWLEDGE <i>Synthesis & Interpretation — judgment-driven work</i> 8 L4 activities M1 85% → M3 65%
DOCUMENT <i>Content Generation — drafting and communication</i> 4 L4 activities M1 72% → M3 40%	TRANSACTION <i>Rules-Based Processing — suited to automation</i> 5 L4 activities M1 60% → M3 35%
EXCEPTION <i>Non-Standard Resolution — human-resolved by nature</i> 2 L4 activities M1 null → M3 null	

Role Accountability

Confirmed RACI assignment for every L3 process, reasoned-match methodology. Full assignment reasoning is documented in the companion Role Assignment RACI document for this value stream.

PCF	L3 Process	R	A	C	I
7.4.1	Manage Labor Relations	—	HRBP Manager	Legal	Director of HR Ops
7.4.2	Manage Collective Bargaining Process	—	HRBP Manager	Legal	Director of HR Ops
7.4.3	Manage Labor Management Partnerships	—	HRBP Manager	—	Director of HR Ops
7.4.4	Manage Employee Grievances	—	HRBP Manager	—	Legal* · Director of HR Ops
7.4.5	Monitor Legal and Regulatory Environment	—	Director of HR Ops	Legal	CHRO
7.7.1	Manage Reporting Processes	—	HRIS Analyst	—	Director of HR Ops
7.7.2	Manage Employee Inquiry Process	—	HR Generalist	HRBP Manager	—
7.7.3	Manage and Maintain Employee Data	—	HRIS Analyst	—	—
7.7.4	Manage HR Information Systems	—	HRIS Analyst	—	Director of HR Ops
7.7.5	Develop/Manage Employee Measures	—	HRIS Analyst	Director of HR Ops	—
7.7.6	Develop/Manage Time and Attendance Systems	—	HRIS Analyst	—	—
7.7.7	Develop Workforce Analytics	—	HRIS Analyst	Director of HR Ops	—
7.7.8	Implement Workforce Analytics	—	HRIS Analyst	—	Director of HR Ops
7.8.1	Develop Employee Communication Plan	—	HRBP Manager	Director of HR Ops	—
7.8.2	Conduct Employee Engagement Surveys	HRIS Analyst (data/survey tooling)	HR Generalist	—	HRBP Manager
7.8.3	Deliver Employee Communications	HR Generalist (delivery execution)	HRBP Manager	—	—

*Legal is engaged only on escalation for contested or high-risk grievances under 7.4.4, distinct from its Consulted role in 7.4.1, 7.4.2, and 7.4.5, where legal involvement is a standing part of the process rather than an exception case.

PCF 7.4, 7.7, 7.8 — Enable & Govern Value Stream

HITL Design

Design Narrative

Enable & Govern is the first value stream spanning multiple PCF L2 groups rather than one, and its accountability pattern reflects that structure: three distinct role clusters emerge along the underlying group boundaries instead of a single dominant owner — HR Business Partner Manager holds the case-based, relationship-driven work (7.4.1–7.4.4, 7.8.1, 7.8.3), HRIS Analyst holds systems and data infrastructure (the majority of 7.7), and Director of HR Operations sits above both as the cross-domain governance layer, directly Accountable for compliance monitoring (7.4.5). This value stream also carries the framework's two Exception-pattern activities (7.4.4 grievances, 7.7.2 employee inquiries), and its steepest AI-absorption opportunities cluster in Document-pattern content — 7.7.1 reporting, 7.8.2 survey administration, and 7.8.3 communication delivery all sit at -32 points. 7.8.2 carries forward its Reward-to-Retain assignment unchanged, since APQC names the same underlying activity separately under two different L2 groups.
