

The Human-AI Partnership Framework

Where human judgment belongs

Enable & Govern

PCF 7.4, 7.7-7.8 — Cross-cutting — compliance, data, communication — Value Stream Profile

This value stream spans 3 APQC PCF process groups: 7.4 Manage Employee Relations, 7.7 Manage Employee Information, and 7.8 Manage Employee Communication — together comprising 16 Level 3 processes and 22 Level 4 activities.

At the activity level, this value stream's work breaks down as 8 Knowledge activities (judgment, synthesis, and interpretation-driven work), 5 Transaction activities (rules-based processing suited to automation), 4 Document activities (content generation), 3 Decision activities (judgment-and-authority gates that stay human by design), and 2 Exception activities (non-standard cases requiring human resolution).

At M3 (HITL Design Intent), the value stream's aggregate human-involvement ratio is 57%, down from a 79% undesigned baseline — a 22-point AI convergence opportunity.

L3 PROCESSES 16	L4 ACTIVITIES 22	M1 BASELINE H% 79%	M3 DESIGN INTENT H% 57%	Δ M1 → M3 -22%

KPIs

Business Impact Metric & Formula (where confirmed)	Source
HR cost-to-serve <i>4 variants: personnel cost as % of total HR cost; personnel cost per HR-function FTE; personnel cost per business-entity FTE; overhead cost per business-entity employee</i>	APQC OSB
ER case cycle time <i>Time from grievance/complaint intake to case resolution, per case, averaged per period</i>	—
Compliance incident rate <i>Confirmed compliance incidents ÷ total headcount, per period</i>	—
Data quality / audit findings <i>Data-quality audit findings requiring remediation ÷ total audit checks performed, per audit cycle</i>	—

Design Narrative

Enable & Govern is the first value stream spanning multiple PCF L2 groups rather than one, and its accountability pattern reflects that structure: three distinct role clusters emerge along the underlying group boundaries instead of a single dominant owner — HR Business Partner Manager holds the case-based, relationship-driven work (7.4.1-7.4.4, 7.8.1, 7.8.3), HRIS Analyst holds systems and data infrastructure (the majority of 7.7), and Director of HR Operations sits above both as the cross-domain governance layer, directly Accountable for compliance monitoring (7.4.5). This value stream also carries the framework's two Exception-pattern activities (7.4.4 grievances, 7.7.2 employee inquiries), and its steepest AI-absorption opportunities cluster in Document-pattern content — 7.7.1 reporting, 7.8.2 survey administration, and 7.8.3 communication delivery all sit at -32 points. 7.8.2 carries forward its Reward-to-Retain assignment unchanged, since APQC names the same underlying activity separately under two different L2 groups.

AI Capability Map

Pattern-type distribution across this value stream's activity units. H% figures are the pattern type's standard value at each maturity level, applied consistently across all PCF domains.

Decision <i>Judgment & Authority — gates that stay human by design</i> 3 L4 activities M1 92% → M3 80%	Knowledge <i>Synthesis & Interpretation — judgment-driven work</i> 8 L4 activities M1 85% → M3 65%	Document <i>Content Generation — drafting and communication</i> 4 L4 activities M1 72% → M3 40%	Transaction <i>Rules-Based Processing — suited to automation</i> 5 L4 activities M1 60% → M3 35%	Exception <i>Non-Standard Resolution — human-resolved by nature</i> 2 L4 activities M1 95% → M3 82%

Process Accountability

The Human-AI Partnership Framework

PCF 7.4, 7.7-7.8 — Enable & Govern — Value Stream Profile

Process Accountability	Tier	L3 Processes	L4 Activities
HRBP Manager	Managerial	7.4.1, 7.4.2, 7.4.3, 7.4.4, 7.8.1, 7.8.3	6
Director of HR Ops	Managerial	7.4.5	1
HRIS Analyst	Operational	7.7.1, 7.7.3, 7.7.4, 7.7.5, 7.7.6, 7.7.7, 7.7.8	13
HR Generalist	Operational	7.7.2, 7.8.2	2

Handoff Points

Enable & Govern is the first value stream in this framework to span multiple PCF L2 groups rather than one, and its ownership split reflects that structure directly: HRBP Manager owns the case-based, relationship-driven work clustered in 7.4 (labor relations, bargaining, partnerships, grievances) plus the communication bookends in 7.8, while HRIS Analyst owns the systems and data infrastructure that makes up the majority of 7.7 — the largest single ownership share in the framework so far.

Director of HR Ops holds a single step (7.4.5 Monitor Legal and Regulatory Environment) but sits above both other owners as the cross-domain governance layer — Consulted or Informed across most of the remaining steps even without direct Accountable ownership of them, reflecting the value stream's own "enable and govern" purpose.

HR Generalist's two steps (7.7.2 Manage Employee Inquiry Process, 7.8.2 Conduct Employee Engagement Surveys) form the value stream's operational-delivery layer. 7.8.2 carries forward its Reward-to-Retain assignment unchanged, since APQC names the same underlying activity separately under two different L2 groups — the framework's first confirmed content overlap across value streams.

Governed Decision Points

Every Decision/Exception-pattern activity in the value stream, including those embedded inside Mixed-labeled steps.

PCF	Decision	Authority	Impact	Escalates To	Trigger
7.4.4	Investigate and resolve employee complaint or grievance	HRBP Manager	Legal + People — litigation and reputational exposure	Director of HR Ops / Legal / CHRO (Managerial → Executive)	Case involves potential litigation, an executive-level employee, or regulatory exposure
7.7.7.3	Select the methodology used for workforce analytics (embedded in Manage HR Reporting & Analytics)	HRIS Analyst	Operational + Strategic — informs downstream restructuring or board reporting	Director of HR Ops (Managerial)	Methodology output will inform headcount, restructuring, or board-level reporting decisions
