

The Human-AI Partnership Framework

Where human judgment belongs

Global Trade & Currency

PCF 9.10-9.11 — International funds, currency exposure & trade compliance — Value Stream Profile

This value stream comprises two APQC PCF process groups: 9.10 Manage International Funds/Consolidation and 9.11 Perform Global Trade Services — spanning 14 Level 3 processes, the most of any PCF 9.0 value stream, though neither group decomposes into Level 4 activities in the underlying APQC taxonomy, so each L3 stands as its own single activity unit.

At the activity level, this value stream's work breaks down as 7 Transaction activities, 4 Document activities, 2 Knowledge activities, and 1 Exception activity.

At M3 (HITL Design Intent), the value stream's aggregate human-involvement ratio is 44%, down from a 70% undesigned baseline — a 26-point AI convergence opportunity, the steepest in PCF 9.0.

L3 PROCESSES	L4 ACTIVITIES	M1 BASELINE H%	M3 DESIGN INTENT H%	Δ M1 → M3
14	14	70%	44%	-26%

KPIs

Business Impact Metric & Formula (where confirmed)	Source
Sanctioned-party screening accuracy <i>% of customer/vendor transactions screened against denied-party lists with zero false-clear rate</i>	GARP (Global Association of Risk Professionals)
Customs entry accuracy rate <i>% of customs declarations filed without a post-entry correction or penalty</i>	APQC OSB
FX exposure hedge coverage <i>% of identified material currency exposure covered by an active hedge position</i>	AFP (Association for Financial Professionals)

Design Narrative

Global Trade & Currency spans two APQC process groups — 9.10 Manage International Funds/Consolidation and 9.11 Perform Global Trade Services — and is PCF 9.0's most fragmented value stream by accountability: no single role holds a majority of its 14 L3s. VP Treasury carries the largest single share at 4 of 14 (international rate monitoring, transaction management, currency-exposure hedging, and letter-of-credit preparation), but Trade Compliance — an external, no-catalog role rather than one of the domain's 14 named roles — is Accountable or Responsible across nearly the entire 9.11 group, the same kind of specialist-role gap PCF 7.0 documented for International HR Management in Global Mobility. This value stream classifies Enablement rather than Operational or Strategy because trade compliance, customs, and currency-risk work is cross-cutting protective infrastructure supporting every other stream's cross-border transactions, not a value chain in its own right — the same reasoning that places PCF 8.0's Risk-to-Resilience in Enablement despite Executive-tier accountable ownership. Its steepest AI-absorption opportunity sits in 9.10.4 (Report results, Document-pattern, -32 points).

AI Capability Map

Pattern-type distribution across this value stream's activity units. H% figures are the pattern type's standard value at each maturity level, applied consistently across all PCF domains.

Decision <i>Judgment & Authority — gates that stay human by design</i> 0 L4 activities <i>No activities of this pattern in this value stream</i>	Knowledge <i>Synthesis & Interpretation — judgment-driven work</i> 2 L4 activities M1 85% → M3 65%	Document <i>Content Generation — drafting and communication</i> 4 L4 activities M1 72% → M3 40%	Transaction <i>Rules-Based Processing — suited to automation</i> 7 L4 activities M1 60% → M3 35%	Exception <i>Non-Standard Resolution — human-resolved by nature</i> 1 L4 activities M1 95% → M3 82%

Process Accountability

Process Accountability	Tier	L3 Processes	L4 Activities
VP Treasury	Executive	9.10.1, 9.10.2, 9.10.3, 9.11.10	4

The Human-AI Partnership Framework

PCF 9.10-9.11 — Global Trade & Currency — Value Stream Profile

Process Accountability	Tier	L3 Processes	L4 Activities
Director of Accounting	Managerial	9.10.4	1
Trade Compliance*	External Participant	9.11.1, 9.11.2, 9.11.3, 9.11.6, 9.11.7	5
Treasury Manager	Managerial	9.11.4	1
Tax Manager	Managerial	9.11.5, 9.11.8	2
Internal Audit Manager	Managerial	9.11.9	1

Handoff Points

Global Trade & Currency runs two largely parallel lanes rather than a single linear flow: VP Treasury's international funds/currency lane (9.10) and Trade Compliance's customs/export-control lane (9.11).

VP Treasury's lane opens with rate monitoring and transaction management (9.10.1, 9.10.2), runs through currency-exposure hedging (9.10.3), and closes with consolidated results reporting (9.10.4) — feeding directly into Record-to-Report's consolidated financial statements.

Trade Compliance's lane runs sanctioned-party screening through customs documentation and duty calculation (9.11.1-9.11.8), with Internal Audit Manager and Tax Manager stepping in only for restitution handling (9.11.9) — the lane's one Exception-pattern activity — and for duty/trade-preference calculation, the two points where the external Trade Compliance role hands off to a named Finance role.

Governed Decision Points

Every Decision/Exception-pattern activity in the value stream, including those embedded inside Mixed-labeled steps.

PCF	Decision	Authority	Impact	Escalates To	Trigger
9.11.9	Handle restitution	Internal Audit Manager	Financial + Compliance — resolves a customs/trade-compliance violation requiring restitution to a regulatory authority	CFO (Executive)	Restitution amount exceeds Internal Audit Manager's standing authority or involves a regulatory enforcement action
