

HUMAN-AI PARTNERSHIP READINESS

AI Role Transition Assessment

HR Generalist — Tim King · Operational tier role · Aug 25, 2026

Moderate tier — Role-level shift

Total score: 74 / 96

RECOMMENDED RESPONSE

Upskilling. Provide targeted training on new tools and judgment calls, and check in on confidence — not just competence.

Section breakdown

Role Clarity		Solid	9/12
Decision Confidence		Solid	8/12
Accountability		Strong	10/12
Workload & Sustainability		Solid	9/12
Trust		Strong	10/12
Psychological Safety & Identity		Solid	9/12
Change Capacity		Solid	8/12
Leadership & Support Readiness		Strong	11/12

WHERE TO FOCUS FIRST — 2 TIED

Decision Confidence (8/12) calls for shadowing or paired decisions for a few cycles, not more documentation — confidence comes back through practice, not policy.

Change Capacity (8/12) calls for sequencing, not more support material — pause the next change until this one has actually settled.

These tied for lowest — worth addressing each on its own terms, not folding them into one response.
