Where human judgment belongs

HR Vision-to-Strategy

PCF 7.1 — Set HR direction & workforce strategy — Value Stream Profile

This value stream comprises one APQC PCF process group: 7.1 Develop and Manage HR Planning, Policies, and Strategies — spanning 4 Level 3 processes and 31 Level 4 activities.

At the activity level, this value stream's work breaks down as 23 Knowledge activities (judgment, synthesis, and interpretation-driven work), 4 Document activities (content generation), and 4 Transaction activities (rules-based processing suited to automation). No Decision- or Exception-pattern activity exists within this value stream.

At M3 (HITL Design Intent), the value stream's aggregate human-involvement ratio is 58%, down from an 80% undesigned baseline — a 22-point AI convergence opportunity.

KPIs

Business Impact Metric & Formula (where confirmed)	Source
Workforce plan accuracy <i>1 – Actual headcount – Planned headcount ÷ Planned headcount, measured at each planning-cycle close</i>	—
HR strategy-to-execution lag <i>Time from HR strategy/policy approval (7.1.1–7.1.3) to operational rollout across affected value streams</i>	—
Competency model coverage <i>Roles mapped to an approved competency model ÷ Total roles in scope</i>	—
Policy currency <i>HR policies reviewed within their scheduled review cycle ÷ Total active HR policies</i>	—

Design Narrative

HR Vision-to-Strategy is the framework's only Executive-tier value stream in PCF 7.0: 7.1.1 (Develop human resources strategy) is the domain's single Executive-Accountable L3, with CHRO holding formal Accountability while HRBP Manager and Director of HR Ops carry the Responsible drafting work. Director of HR Ops then holds Accountable for translating that strategy into workforce planning and keeping it current (7.1.2, 7.1.3), while Director of L&D owns competency model design (7.1.4) as an adjacent step. Every other PCF 7.0 value stream operates downstream of this one — its outputs (approved strategy, workforce plans, policies, competency models) are the direct inputs the operational and enablement streams execute against. Its steepest AI-absorption opportunities cluster in Document-pattern content — 7.1.1.7 (communicating HR strategy) and 7.1.2.16 (maintaining job descriptions) both sit at -32 points.

Handoff Points

HR Vision-to-Strategy opens with CHRO-accountable strategy formation (7.1.1), then hands to Director of HR Ops for workforce planning, policy administration, and ongoing strategy monitoring (7.1.2, 7.1.3) — the value stream's design-and-governance layer. Director of L&D holds competency management models (7.1.4) as a single adjacent step within this same design-tier group, closing the value stream before its outputs hand off downstream to every operational and enablement stream in the domain.

Governed Decision Points

Every Decision/Exception-pattern activity in the value stream, including those embedded inside Mixed-labeled steps.

PCF	Decision	Authority	Impact	Escalates To	Trigger
7.1.1	Approve the enterprise HR strategy	CHRO	Strategic — sets direction and resource allocation for every downstream HR value stream	CEO / Board (outside the HR role catalog)	Strategy requires enterprise-level budget commitment beyond CHRO's authority, or conflicts with board-approved workforce or financial constraints
