HITL Design Insight

HITL Design Insight — O2C

2 Decision gates (80% Human at M3) are the irreducibly human layer — order acceptance and fulfillment-process determination carry commercial and customer authority that must remain human by design. **2 Document steps** (40% Human at M3) cover order confirmation and invoice generation — structured document creation with moderate AI augmentation. **12 Transaction-pattern steps** (35% Human at M3) represent the AI absorption opportunity — fulfillment, invoicing, AR maintenance, payment processing, and cash application in rules-based sequence. **4 Exception flows** (82% Human) require human resolution — backorders, order inquiries, collections/dunning, and dispute resolution. O2C aggregate at M3: **49% Human / 51% AI** — grounded in APQC PCF SIPOC reference architecture and consistent with the enterprise-wide Human-AI convergence finding.

HITL Impact Analysis

H% = Human involvement at each maturity level · M3 = HITL Design Intent · ★ = Design target

Process Step (L3)	PCF	Pattern	M1 H%	M3 H% ★	Δ M1→M3	Opportunity
